Carly Zien Intimacy Coordinator

Intimacy coordination is an exciting new practice that is quickly becoming the industry standard for film and television. Carly Zien began training as an intimacy coordinator in 2016, and in 2018, she began working with Intimacy Directors International as a trained Intimacy Coordinator.

In early 2020, SAG-AFTRA published their "Standards and Protocols for the Use of Intimacy Coordinators", requiring intimacy coordinators to be present for high-exposure scenes, a huge step forward for the film and television industry. Carly is excited to be on the leading edge of this work, and looks forward to telling many stories with clarity, consent, and passion.
